

Assessment 3 - Instructions (100 marks/20 per cent)

The Intended Learning Objectives (LO) achieved by completing this task include LO 3, LO 5, LO 6 (please see unit handbook for details).

The assignment provides you with an opportunity to work independently testing your understanding of FIT5197.

Does:	Don'ts:
Requests for the special consideration must be submitted at least 2 days BEFORE THE DEADLINE via Monash Connect.	Plagiarism/Collusion are not allowed and will be penalized accordingly with the maximum penalty being EXCLUSION from Monash University.
Show all working details while answering questions by adhering to the given instructions. 0 mark will be given if you can't show all working details as required. All details in your answer should be accounted for in both the PDF and ipynb file.	Please don't send personal emails to lecturers/tutors asking for suggestions, as we want this unit to be transparent to every student. Moodle Discussion Forum and Consultations are for clearing your doubts and questions.
The assignment needs to be submitted in PDF and ipynb files. 20% will be deducted for each missing file.	Please don't reveal your work to others when posting your enquiries on Moodle Discussion Forum. Plagiarism will be considered.
You should name the files as "Assignment3_StudentID.pdf(.ipynb)". 20% of the entire assignment value penalty will be applied for wrong file format/name.	Late submission will incur 5% of the entire assignment value per day. 0 mark will be given after 10 days after the due date.
10 marks for presenting your answer in an elegant and readable PDF including writing math expressions in Markdown, commenting on R scripts, creating intuitive plots with clear labels. Handwritten answers will incur the loss of all 10 marks.	Reverting your assignment to draft will incur a loss of 5% of the entire assignment value. It is cumulative with the late submission and other penalties if there are any.
Please head to Assessment Forum and put down your queries if you need any clarification, though we have proofread the assignment carefully.	Please don't send personal emails to lecturers and tutors when you want to revert your submission to draft. Instead, please head to Assessment Discussion Forum and put down your requests with your Name and StudentID.
Full marks will be given if you have the correct method and the final result. Partial marks will be given if you have the correct method but the wrong final answer. Answers with the incorrect method will receive 0 mark though the final result is correct.	Turning off the forum notification/Not checking the forum regularly is unacceptable for having incorrect answers.
Make sure you click on the SUBMIT button when you finalize your submission. Assignments in DRAFT will be counted as LATE SUBMISSION.	Please don't ask for the solution to this assignment after the due date considering we will have many extension requests. We will provide you with a very specific feedback for Every Question.
By submitting the assignment, you are considered to have read all the instructions carefully and be aware of the penalties that may incur. Please head to the GENERAL FORUM and voice your concern if you have difficulties in understanding the assignment instructions.	Please don't seek for help on the external communities like Quora, Chegg, Zhihu, as this is considered as cheating. There will be major penalties once found.

Bonus marks for Assignment 3.

3%, 2% and 1% bonus marks will be given to the individuals with the 1st, 2nd, 3rd highest activity on Ed - estimated as (number of views) * (number of threads) * (number of responses) - in the fortnight prior to the Assignment 3 deadline, respectively. If you received a bonus for Ed activity for assignment 2 you are not eligible for the bonus on assignment 3.
